PROFESSIONAL SUMMARY

Systems Engineer with experience since 2019 in web and mobile applications, integration with corporate ERPs (Oracle Applications Cloud) through Oracle APEX, REST APIs and SOAP, and reporting in Oracle Analytics. I work both ends of the stack: React and Ionic interfaces, NestJS and .NET backends, and the data layer in Oracle (PL/SQL) and PostgreSQL. I use Claude Code in my development workflow, with up-front specifications, verifiable task plans and human review of every change.

TECHNICAL SKILLS

Languages: PL/SQL, SQL, C#, JavaScript, TypeScript, Python

Data & BI: Oracle DB, Oracle Analytics / BI, PostgreSQL, MySQL, SQLite, Power BI

Frameworks & tools: Oracle APEX, React, NestJS, TypeORM, Node.js, Express, .NET, Ext.NET, Ionic, Unity, AWS

Integration & method: API REST, SOAP, Socket, Serial COM, Swagger, Git, TFS, Scrum

AI-assisted development: Claude Code, Spec-driven development, CLAUDE.md, Skills & agents, Archify (diagrams)

WORK EXPERIENCE

Development Engineer

Synergy Work | Jul 2021 – Present

- Built the InfoMetal web application with JavaScript and React.
- Integrated InfoMetal with the Oracle Applications Cloud ERP.
- Connected to hardware via COM serial port, with socket communication and Express relaying data to the web application.
- Built Oracle APEX integration applications: connections to BI, SOAP services, and REST APIs.
- Created BI reports with SQL models in Oracle Analytics.
- Mobile applications with Ionic: QR code scanning and ticket printing on Zebra devices.
- Administrator of SyTix, the company's internal ticketing system with SLAs, and ticket resolver when needed.
- AI-assisted development with Claude Code: specifications, task plans and verification (tsc, lint and build) before publishing.

Administrative Technician

Universidad de la Amazonia | Jun 2021 – Jun 2022

- Gathered requirements with the user departments.
- Supported the "Chaira" system, including the procurement modules.
- Maintained, cleaned up, and refactored code in C# and Ext.NET, along with procedures, functions, and types in the Oracle database.
- Developed new features with .NET.
- Generated reports and templates within the system.

Software Developer

Universidad de la Amazonia | Oct 2020 – Dec 2020

- Developed an APK with C# and SQLite in Unity for the "Rainforest Community Manager" project, including the graphical interface design.
- Designed and built the mobile and web databases; PostgreSQL for the web platform.
- Backend web services with NestJS and TypeORM, documented with Swagger.
- Deployed the backend on an Ubuntu server and provided web server support.

Developer

Compuelectrónica | Aug 2019 – Nov 2019

- Database design.
- Mobile development.

3D Video Game Development and Modeling

Universidad de la Amazonia | Jan 2018 – Apr 2018

- Modeled and textured 3D assets, environments, and characters; created textures and object mapping.
- Development in Unity with a SQLite database.
- Documentation: user stories and process modeling.

AI-ASSISTED DEVELOPMENT

- Claude Code as a development assistant: I specify, plan, steer and review; the AI implements task by task, one commit per change.
- Spec-driven development: vision, design system, architecture and roadmap in writing before coding.
- Project rules in CLAUDE.md, plus skills and agents, to keep things consistent (i18n, paths, confidentiality).
- Interactive architecture and flow diagrams generated with the archify skill.

PROJECTS

Professional portfolio | jpmurcia.github.io/portafolio-Jp

Bilingual (ES/EN) site with light/dark theme in React 19, TypeScript, Vite and Tailwind CSS; built with Claude Code and specifications. Deployed on GitHub Pages.

Cacao Adventure

Educational video game in Unity, C# and SQLite: 3D modeling, development and documentation. Published on Google Play.

EDUCATION

Systems Engineering

Universidad de la Amazonia, Florencia, Caquetá | January 2015 – February 2024

Commercial and Financial Operations Accounting

SENA, Florencia, Caquetá | March 2013 – November 2014

CERTIFICATIONS & COURSES

- AWS Cloud Practitioner Essentials (Second Edition) - Amazon Web Services, January 2022
- Scrum Fundamentals Certified - SCRUMstudy, January 2022
- Módulo Gobernanza de Datos - UBA IALAB, March 2022
- NestJS: Persistencia de Datos con TypeORM - Platzi, June 2022
- Curso Profesional de Git y GitHub - Platzi, May 2022
- Fundamentos de Ingeniería de Software - Platzi, May 2022
- Power BI avanzado - LinkedIn Learning, March 2021
- Data scientist: Minería de datos esencial - LinkedIn Learning, April 2021
- Fundamentos de programación: Diseño orientado a objetos - LinkedIn Learning, May 2021
